

CALL FOR SPEAKERS

Deadline: 30 October 2016

4th EUROPEAN CYCLE LOGISTICS CONFERENCE 2017

The European Cycle Logistics conference invites you to share with us your experiences, projects and reports and contribute to the Conference to be held in Vienna, Austria in March 2017.

The conference is the European expert conference and meeting point for cycle logistics and domestic cargo bikes where high-ranking speakers and experts are expected to address 300 delegates from across Europe, English will be the meeting language.

Themes

As well as plenary sessions where all delegates will be addressed, the conference will be organized into three streams aimed at:

- Municipalities & National/Local Authorities
- Businesses & Associations
- Domestic Users

There will be dedicated sessions for each stream and we welcome contributions from innovative and engaging speakers from municipalities, businesses & associations and domestic user groups to present their ideas, experience and knowledge in one of three sessions:

Showcase – in this session we are looking for speakers to demonstrate how they are carrying out cycle logistics in their respective sector, area and location. It is an opportunity to show off and tell the conference delegates about the successes and benefits which are being achieved.

Support – in this session we want to dig a bit deeper into the problems and issues which need to be addressed and overcome to deliver cycle logistics solutions. The session can cover broad issues or alternatively speakers might want to concentrate on a very specific aspect. But remember it needs to be engaging for the audience.

Strategy – in this session we want to understand and determine the strategy required to expand cycle logistics across Europe to Municipalities, Business & Associations and Domestic Users.

An outline conference schedule can be found on the conference website www.eclf.bike/vienna17.

Formats

We are looking for ways to engage with the delegates and you are welcome to suggest the format you would like to present (for example lectures, Pecha Kucha, panel discussions, etc). In addition, we also intend to host a poster area which will run for the duration of the conference which will be a dedicated area where contributors will be provided with space to present an A1 sized poster.

Information

- Your abstract (maximum 300 words) must be submitted before 30 October 2016 and sent by email to abstracts@eclf.bike. Please do not forget to include your name, company/organisation and contact details
- You may identify more than one author, however the conference organizer reserves the right to invite only the main author to present
- You may select which format best suits your presentation, however the conference organizer reserves the right to choose the final presentation format
- Selected abstracts will be notified by 31 December 2016
- Confirmed speakers will benefit from a discounted conference registration fee.
